Home insurance made easy

What does buildings insurance cover?

Buildings insurance covers the structure of your home including its outbuildings, boundary walls and pools along with any permanent fixtures and fittings like bathrooms, doors, kitchen units and solar/pv panels. It covers the cost of repairing or re-building your home if it's damaged by flood, fire or any of the other risks covered by the policy. Buildings insurance also includes free public liability as the property owner.

What does contents insurance cover?

Contents insurance covers any of your possessions while they are in your home including large items like furniture, soft furnishings, home entertainment equipment as well as your personal belongings, valuables and money.

The Atlas Homeplan Policy replaces or pays for lost or damaged items in your home on a new for old basis (except for clothing and household linen, where a cash sum is paid with a deduction for wear and tear). Cover automatically includes personal liability to the public and to domestic employees.

How much should I insure my home for?

We leave these values entirely up to you and we do not need to assess these ourselves. The value of your buildings needs to cover the cost of rebuilding your home as it is with all the fixtures and fittings. As for your contents, you would also need to calculate an approximate value to replace the items that do not fall within the buildings description. Should you require assistance, you can download our value guide from www.atlas.com.mt.

What is a 'valuable'?

Valuables are classified as items of gold, silver and other precious metals, jewellery, watches, furs, paintings and other works of art. Coin, stamp and medal collections are also classified as valuables.

The Homeplan policy automatically covers the valuables in your home up to one-third of the total contents value or €20,000 (whichever is the lower). If your valuables make up more than these limits, you need to inform us. Valuations for individual items would only be required if they cost €3,500 or over.

Can I cover certain items outside my home?

Yes, we can insure certain items (referred to as personal belongings) such as jewellery, watches, cameras and similar items away from your home. Such cover will automatically insure them for up to 15 days while you are travelling in Europe. Worldwide cover is also available. Valuations on such items exceeding €750 would be required for record purposes. Please feel free to ask us for more details. Extra premium would be charged on this type of insurance.

How do I make a claim?

In the unfortunate event of a burglary or a large loss due to malicious acts, you must notify the police immediately. Should you have a fire, you must phone the Fire Department (112) immediately. Following this or for any other claim, please notify our Personal Insurance Claims Department on 2343 5363 and we will guide you accordingly. You may also refer to www.atlas.com.mt.

What is 24/7 HomeHelp?

When you purchase an Atlas HomePlan policy, you are automatically covered for our 24/7 HomeHelp in the event of an emergency where you and/or your family are exposed to a health risk or an event which might potentially cause loss or damage to your home. This emergency assistance is mainly available for sudden plumbing problems, failure of electricity in all or the greater part of your home, loss of the only key to your home and broken or damage windows, all of which could be a potential risk.

What do I need to be aware of?

- Your home must be in Malta or Gozo and be used purely for residential purposes
- You need to tell us if you rent out your property or if you use it for commercial business - we can offer you cover but policy conditions might be different
- We need to know if there is history of flooding involving your home or if there have been any previous claims
- We also need to know if your home is left unoccupied for more than 90 consecutive days in the year

What are the main items not covered?

- Any losses due to fluctuation of the electrical supply/power surges, faulty design, materials and workmanship, deterioration, wear and tear, vermin, rot, climatic or atmospheric conditions or gradually operating causes
- Any loss that occurred before the insurance commenced
- Cleaning, maintenance, repairs, setting up or dismantling
- Depreciation in value following any loss and/or repairs

For complete policy exclusions, please do ask us or refer to the policy document available on www.atlas.com.mt
