## FACT SHEET - ADVENTUROUS STRATEGY AS AT 30/06/2023

### INVESTMENT OBJECTIVES

The IVALIFE Adventurous Strategy aims to maximise growth over the longer term. Investing always involves a level of risk, and movement in value, up or down, is expected. This Strategy's assets are spread over a wide array of sectors and geographic locations to ensure maximum diversification.

### PORTFOLIO STRATEGY

The IVALIFE Adventurous Strategy takes a long-term strategic approach to asset allocations across different classes taking into consideration the market outlook. This Strategy primarily invests in funds where the underlying assets include a mix of equities across distinct sectors. Between 85% and 100% of the assets of this Strategy are invested in equity funds with the underlying investments held across various countries and industries. These equity funds have their assets spread over alternative currencies. The IVALIFE Adventurous Strategy is focused on achieving capital growth by investing in higher risk assets.
